

# Free Baby Playgroup

# Special Beginnings

It can be hard being a special needs parent. You can feel lonely and a little bit jealous of the other moms (and dads) at other playgroups, especially if your child isn't quite as quick to reach some milestones. Sometimes you end up not going anywhere at all because you are scared of the judgement and questions.

If you have a baby or toddler (age 0-3) with developmental or intellectual disabilities, please come join us! Join parents like you and their littles for some messy fun, music and encouragement!
